WEATHER FORECAST.

SAN FRANCISCO, Feb. 28.—For Southern California: Fair, nearly stationary temperature, except cooler on the northern coast; fresh northerly winds.

Death from Smallpox.

HOT SPRINGS, Ark., Feb. 28.—Regarding the smallpox situation in Hot Springs, the president of the Board of Health, Dr. T. C. Call, issued this evening issued the following bulletin:

"Two persons have been sent out to the smallpox station and two new cases are found in the city. Everything is quiet. A few physicians were careless about reporting. The law requires prompt reports and if they are not made we cripple the efficiency of the service and we trust our physicians will be prompt in this matter. There was one death today."

The reports in papers outside of Hot Springs are very much exaggerated. The disease is now considered well in hand and every effort is being made to stamp it out.

A Long Voyage.

NEW YORK, Feb. 28.—The American shipper of Bahia has been here since Friday, after a voyage of 134 days with 75,000 bushels of wheat.

In the North Pacific about thirty-six miles above the equator, a month after she left Portland, the Reaper passed through a strip of black water about sixty feet wide, extending as far as the eye could see from the northwest to south.

She came parallel with the west coast of Central America and Mexico. On Feb. 20, she was in the South Pacific a hard gale that affected only the stratum

THE NEW SCHEDULE.

Salaries to be Paid to Deputies and Clerks.

Which Will Be Incorporated in the Proposed County Government Bill.

Savings Will be Effected in the Offices of the County Clerk, Auditor, Sheriff, Treasurer and Others.

By Telegraph to The Times.

SACRAMENTO, Feb. 28.—(Special Dispatch) The Los Angeles legislative delegation, Deputy County Clerk Barlow, Sheriff Burr, Dist.-Atty. Donnell, ex-Judge Austin, Deputy Auditor Wood, Treasurer Fleming, Tax Collector Merwin and Assessor Summerland, met early this morning to fix a schedule of salaries of their deputies, to be incorporated in the County Government Bill.

As suggested by the heads of departments, a schedule was adopted as follows: County clerk's office, one chief deputy at \$150 per month, two registry clerks at \$125; one clerk to the board of supervisors and six court-room clerks at \$125 each; one recording clerk, one file clerk, one index clerk, one clerk in charge of criminal records, one miscellaneous clerk and one assistant clerk to the board of supervisors, \$80; one stenographer, \$75; town map clerk for the board of supervisors, \$75; one clerk, \$45; six clerks, \$70 each, for not exceeding one month in any year; one deputy, \$25 per month. This makes a saving in the expenses of the office of \$23 per annum.

Sheriff's office—One under sheriff, \$150; one book-keeper, \$125; eight deputies, \$90 each; nine deputies, \$80 each; one jail matron, \$60; two deputies, \$70 each, for not to exceed five months in any year; one stenographer, \$75. No provision was allowed by the delegation for boarding the matrons and the two turnkeys, nor for the expense of increasing the death-watch next November, though these are important items in the maintenance of a sheriff's office. No increase was made in the present cost of running the office.

Recorder's office—One chief deputy, \$110; one assistant and one index deputy, \$90 each; six deputies, \$75 each; one deputy, \$70; as many copyists as necessary, to receive 5½ cents per folio; four copyboys, \$75 each per month for time actually employed.

Auditor's office—One chief deputy at \$150; one deputy, \$100; one deputy, \$90. Mr. Bulla moved to increase the last item to deputies at \$90 each, which was carried. This schedule effects a saving of \$237 in the annual cost of running the office.

Treasurer's office—One book-keeper, \$100; one chief deputy, \$125; one deputy, \$45. A saving of about \$44 is made in this department.

Tax collector's office—One chief deputy, \$110; one cashier, \$100; one correspondent, \$90; one license clerk, \$90; two report clerks, \$100 each; one general clerk, \$100; two clerks, \$75 each; thirty-five emergency clerks at \$75 each, to hold office not to exceed four months in any year. This will effect a saving of between \$1000 and \$1500.

District attorney's office—One assistant district attorney, \$185; one chief deputy, \$180; one deputy, \$135; two deputies, \$100 each; one stenographer, \$75. The board of supervisors is not prohibited by the County Government Bill from employing special counsel whenever the interest of the county may require it.

Assessor's office—One chief deputy, \$125; two deputies, \$90 each; thirteen deputies, \$80 each, to hold office not exceeding four months in any year; thirty deputies, \$85 each, for not exceeding four months; two deputies at \$90, not to exceed four months; thirty-nine deputies, \$90 each, not to exceed one month; five deputies, \$80 each, not to exceed three months; seventeen clerks, \$70 each, not to exceed four months; one clerk, \$30, not to exceed four months. A small saving is made in this office.

Coroner's office—Such fees as are now or may hereafter be allowed by law.

The public administrator, like other officers, is allowed his statutory salary of \$3000 per annum. The only increase made in any office was in that of the county superintendent of schools, where the salary of the assistant superintendent, because of the expense of making necessary visits to various schools, was raised on motion of Mr. Huber to \$110, and the salary of the deputy superintendent, which, on motion of Mr. Bulla, was raised to \$100. The sentiment of the entire delegation, except Senator Mathews, seemed favorable to these increases which are more than offset by the aggregate saving effected in other offices.

Surveyor's office—One chief deputy, \$115; four dragoons, \$100 each; one dragoon, man, \$75.

Dist.-Atty. Donnell had some figures which he wished to present in regard to compensation for boards of supervisors, justices of the peace, constables, etc., but consideration of them was postponed until tomorrow morning.

"HALF MILLION" CLUB.

San Francisco Will Try to Increase its Population.

Associated Press Leased-wire Service.

SAN FRANCISCO, February 28.—At a largely-attended meeting of San Francisco business men this afternoon a "half-million" club was organized. The object of the organization, as expressed in a resolution which was adopted, is "for the purpose of united effort in bringing about such additions to the resident population of this city that it will aggregate half a million of people before the opening of 1900."

The estimated population of the city now is about 300,000.

DEAD BILLS.

Sunday Baseball, Sunday Theaters and Cigarette Sales.

Associated Press Leased-wire Service.

JEFFERSON CITY (Mo.) Feb. 28.—The Senate and House have defeated the bills prohibiting Sunday baseball, Sunday theaters and similar amusements. The House bill, prohibiting the sale of cigarettes to minors, was killed by the Senate.

A bill authorizing poolselling and bookmaking on race courses during the race season, on either home or foreign events, has been passed by the Senate.

ACCIDENT TO THE SOLANO.

Overland Passengers Will Have to Travel the Old Route.

PORT COSTA (Cal.) Feb. 28.—The Southern Pacific ferry-boat Solano met with a serious accident while crossing the bay at 2:15 this morning. The piston rod broke and other parts of the machinery were so badly damaged that it will be two or three months before the necessary repairs can be made. In the meantime travel will be maintained by way of Lathrop and Vallejo to East Oakland.

SENSATION SPOILED.

Report that a Prominent Lawsuit Has Been Compromised.

Associated Press Leased-wire Service.

SAN FRANCISCO, Feb. 28.—A suit that at one time promised sensational development, was dismissed in the United States Circuit Court here today for want of prosecution. About two years ago "D'Chute" Chute, a local politician, sued the law firm of Butler, Stillman & Hubbard of New York, for \$2500. This law firm represents the Seaside-Hopkins interests in the Southern Pacific Railroad Company. Chute, in his complaint, alleged that the firm had agreed to pay him a certain sum for political services rendered in lobbying at the State Legislature in Sacramento. The complainant did not appear in court today and the case is believed to have been compromised.

HAD A FULL.

John McAuliffe Released from San Quentin Prison.

Associated Press Leased-wire Service.

SAN FRANCISCO, Feb. 28.—John McAuliffe, a brother of the fugitive, Joe McAuliffe, came out of San Quentin penitentiary today and was met upon his arrival here by a choice delegation of politicians from the Mission. A little less than four years ago McAuliffe was sentenced to ten years' imprisonment in San Quentin for highway robbery. Joe McAuliffe, since his pugilistic decline, has become a popular political figure, and one of the results of his imprisonment in the political arena was the acquisition of political influence to effect the release of his convict brother, who has been paroled by Gov. Budd.

ROUGH EXPERIENCE

OF THE DISABLED COAST STEAMSHIP JEWEL.

Broke Her Shaft Crank and Used Up Every Bit of Iron Aboard the Vessel in Order to Make Another.

Associated Press Leased-wire Service.

SAN FRANCISCO, Feb. 28.—The coast steamship Jewel, which was found at sea in a disabled condition by the steamer Scotia several days ago, has arrived in port.

The Jewel had a rough experience. She left San Pedro on the evening of Washington's birthday, and everything indicated she would reach this city Sunday. Early on Saturday morning while off Point Arguello one of the shaft cranks snapped in twain. It was impossible to use the engines until the damage was repaired, and at the same time her iron tools were inadequate to keep her under way. Engineers Blanchard set to work to make temporary repairs in an ingenious manner. A bar of iron was forged into a clamp, resembling the letter U, and made to fit the broken crank. This was securely bolted on both sides. The makeshift worked successfully under very slow steam, and at this rate the damaged vessel reached Port Harford where the clamp snapped. A new one was secured, after which an attempt was made to resume the voyage. All went well until the heavy swell and stiff breeze off Point Sur were encountered when the clamp again broke. Every scrap of iron that could be found around the vessel was converted into clamps, iron-hawsers, fire-rope and everything. Finally they got down to a puny handle. If that broke they would have to signal for help, for it was the last piece of iron on board. When the steamer Scotia arrived here her captain reported that he had the Jewel in safe condition, while it was declared the Jewel's officers, however, in a different story. They say while it was still the Scotia offered to take them such an exorbitant price was asked that they concluded to take chances of reaching a point of safety unaided.

PRESNO IS IN IT.

Has Started "One Hundred Thousand" Club.

Associated Press Leased-wire Service.

FRESNO, Feb. 28.—A preliminary meeting was held in this city tonight for the purpose of organizing a one hundred thousand club on the plan of the population-promoting club which has recently come into existence in other cities. It is expected for the members to contribute \$100 each year for the first five years, and for the third year a deficiency for postage and expressage in the Secretary of State's office were passed.

ASSEMBLY.—The Assembly Ways and Means Committee reported favorably sending in a bill providing for a State investigation commission to the Judiciary Committee, and it was so ordered. The Military Committee sent in a compromise bill regarding the National Guard bill, three brigades for Milwaukee last night.

The County Division Bill came up, and Mr. Burke urged his amendment providing that no new county bill shall be formed out of any portion of more than one present county. It was referred to the Judiciary Committee.

Under the suspension of the rules Mr. Bush of Santa Cruz offered a new bill providing for the San Francisco Harbor Commissioners to shall advertise for bids on all contracts of over \$500, instead of \$3000, as at present.

A resolution was offered and referred approving the new charter of the town of Berkley.

Bills appropriating \$13,500 deficiency for the Los Angeles Normal School; also deficiency for the maintenance of prisoners for the fourth fiscal year, and a deficiency for postage and expressage in the Secretary of State's office were passed.

SENATE.—The Assembly Ways and Means Committee reported favorably sending in a bill providing for a State investigation commission to the Judiciary Committee, and it was so ordered. SEN

THE NATION'S MONEY

How it is Being Appropriated by Congress.

Tell Between Senators Walcott and Stewart Over Silver Commissioners.

Senator White Makes a Proposition Relative to the Amount Derived from the Sale of California Public Lands.

Associated Press Leased-wire Service.

WASHINGTON, Feb. 28.—The Senate passed the Sundry Civil Appropriation Bill, including the item appropriating over \$5,000,000 for sugar bounties and the provision for a commission to represent the United States at an international monetary conference. The latter feature brought out a wide difference of opinion among the silver men of the Senate as to the advisability of participating in an international conference.

Mr. Stewart of Nevada sought to have the United States delegates instructed not to make any agreement short of a recognition of silver at the ratio of 16 to 1. This was opposed by Mr. Wolcott, who has always heretofore co-operated with Mr. Stewart on the silver question.

Mr. Wolcott severely arraigned the Nevada Senator for his intolerance on financial questions.

Mr. Stewart commanded only nine votes for his 16 to 1 amendment, most of the leading silver men, Democrats and Republicans, voting against it.

The rush of the closing hours of Congress showed itself today in the miscellaneous measures of the bill.

The House, desirous to further insist on its disagreement to the Senate amendment to the Diplomatic and Consular Appropriation Bill, providing for the Hawaiian cable. The Senate bill to regulate the deductions from the gross tonnage of vessels for the purpose of determining the net tonnage (which forms the basis of port charges) was passed and several conference reports on bills of minor importance were agreed to.

FIFTY-THIRD CONGRESS.

Associated Press Leased-wire Service.

WASHINGTON, Feb. 28.—SENATE.—Lauren Baker, the new Senator-elect from Kansas, was on the floor of the Senate for the first time and was introduced to his associates by Mr. Martin, whom he succeeds.

Mr. Gallinger briefly addressed the Senate at the opening of the session today in favor of a plan presented by the Daughters of the Revolution that a copy of the Declaration of Independence be conspicuously placed in every postoffice.

The Deficiency Appropriation Bill was reported by Mr. Cockrell, leaving only one in the Naval—remaining before the Appropriations Committee. Consideration of the Sundry Civil Bill was then resumed.

Mr. Purdy offered an amendment appropriating \$300,000 for the dredging of port channels. It was passed and seven conference reports on bills of minor importance were agreed to.

Mr. Galt (Dem.) of Tennessee urged an amendment of \$105,000 for government participation in the Tennessee State Centennial.

Mr. Hoar (Rep.) of Massachusetts formally asked Mr. Ward for the constitutional authority for this appropriation.

Mr. Galt said it was the same authority that gave Congress aid to the World's Fair at Chicago, and to the Cotton States exposition at Atlanta.

A point of order against the amendment made by Mr. Cockrell was submitted to the Senate and the appropriation was sustained, 33 to 15.

Mr. Stewart (Pop.) of Nevada moved to rescind an amendment already adopted for participation by the United States in an international monetary conference. He said France was the only European country in a position to take part in such a conference with any prospect of fairness to silver. "Therefore would propose an amendment to this proposition instructing the United States not to agree to any ratio below 16 to 1."

Mr. Wolcott (Rep.) of Colorado said he greatly regretted this division of opinion among Senators from the silver States who had so long stood together. The Senator from Nevada (Stewart) declared this was a scheme of the gold belt to force the rest of the world over which had just culminated in success before the British Parliament and the German Reichstag in favor of an international conference?

France, too, was taking the initiative. Success was almost at hand, and the world the friends of silver through the gallant fight of the friends of silver to pause for a moment of success? The Senator declared himself in favor of American bimetallism, but if the nations of the world united in offering the greatest advantage to silver, it had received since its demonetization, it was to be criteria.

As Mr. Wolcott closed his vigorous speech there was a burst of applause from the gallery, which the Vice-President checked by the gavel and giving a sharp admonition.

Mr. Stewart again took the floor, denouncing the proposed amendment as a "trade with our opponents." Whatever other might do he would never consent to such a scheme. The Stewart motion to reconsider was defeated—yeas 9, nays 52.

The affirmative was as follows: Allen, Blackburn, Call, Cockrell, Kyle, Martin, Peffer, Pugh and Stewart.

The negative vote included many leading silver men, such as Teller, Jones of Arkansas, George, Wolcott, Cameron and others.

Mr. Cameron offered an amendment restoring the salary of the Superintendent of the Coast and Geodetic Survey to \$6,000, instead of \$5,000, as reduced in the bill, but the amendment was defeated.

Mr. Squire of Washington secured an appropriation of \$5000 for an investigation of the coal and gold resources of Alaska.

Mr. White (Dem.) of California proposed an appropriation to pay California 5 per cent. of California public lands sold since she was admitted to Statehood. The amount of the appropriation was estimated at \$500,000. The amendment was ruled out of order.

Mr. Kyle's amendment appropriating \$20,000 to sink wells for irrigating purposes was also sent out on a point of order.

Mr. Martin's amendment granting an additional sum of military post to the State of Kansas for the period of college, was ruled out of order, as was also an amendment of Mr. Mitchell (Rep.) of Oregon, appropriating \$35,000 to Oregon and \$40,000 to Nevada to reimburse these States for assistance in suppressing the rebellion.

Mr. Carey's amendment granting certain lands of the Fort D. A. Russell military reservation to Wyoming for public purposes was adopted.

An amendment was also added allowing copies of the World's Fair certificates, etc., to exhibitors and to newspaper paying for the same.

An appropriation of \$10,000 was made for ten historical volumes on the Columbian Exposition.

At 3 o'clock the Sundry Civil Bill, which had been in committee of the whole for many days, was reported to the Senate.

A number of bills were then taken on reported amendments.

Mr. Carey offered a substitute, which was adopted, in place of the previous appropriation for public buildings at Cheyenne, Wyo.; Boise City, Idaho; and Helena, Mont. This substitute appropriated

\$55,000 for the three sites, and limits the cost of each building to \$250,000. This leaves out the sites of Olympia, Wash., Bismarck, N. D. and Pierre, S. D.

Mr. Stewart renewed his amendment instructing United States delegates to the international monetary conference not to agree to any ratio short of 16 to 1, and it was defeated—10 to 49.

The vote was then substantially the same as the one earlier in the day.

The affirmative vote was: Allen, Bate, Berry, Call, Hunton, Irby, McLaughlin, Peffer, Pugh, Stewart.

The Sundry Civil Bill was then passed, and the legislative, Executive and Judicial Appropriation Bill.

A resolution was adopted requesting the President to urge upon the republic of Nicaragua the settlement of certain claims of the United States.

Rapid progress was made on the Legislative, Executive and Judicial Appropriation Bill at the night session of the Senate.

Mr. Dubois sought to strike out the appropriation for the Utah commission, and to provide that the suppression of bigamy and polygamy shall hereafter be prosecuted under the laws of Utah. Mr. Dubois introduced the polygamy commission bill. There was a division of the party, and that the local authorities might well be trusted to administer the affairs of the State.

A long discussion followed, in which Senator Hill of New York was especially prominent.

At 12:35 Friday morning the Legislative, Executive and Judicial Appropriation Bill was passed and the Senate adjourned.

At the request of Mr. Cockrell the Senate agreed that at the evening session the legislative bill should be disposed of and no other business transacted except unobjectionable pension bills, and Mr. Chandler be permitted to submit some remarks on the case of Mr. Martin of Kansas, who, Mr. Chandler holds, was not legally elected.

Recess.

HOUSE.—There was a large attendance on the floor when the House met today. The Speaker laid before the House the President's veto of the bill to pension Catherine Ott, and it was referred to the Committee on Pension.

The fifty-four bills passed by the Senate on Tuesday night (most of them of minor importance) were laid before the House and disposed of.

The Senate amendment to the bill to prohibit the wearing of the sign of the Red Cross Society was agreed to; also Senate amendments to the bill granting railroads in the Indian Territory additional powers to secure rights-of-way, etc.

The Senate bill to regulate the reduction from the gross tonnage of vessels for the purpose of determining the net tonnage (which forms the basis of port charges) was passed.

Mr. McCreary (Dem.) of Kentucky presented the conference report on the Consular and Diplomatic Appropriation Bill and moved that the House insist on its adoption. The Senate amendment providing for the Hawaiian cable. Mr. Hitt moved to concur in a motion that took precedence. This question had been twice discussed in the House, and the vote taken on Mr. Hitt's motion without debate. Lost, 115 to 50.

The without division, the House insisted on its adoption to the Senate amendment to the Hawaiian cable amendment and the bill was sent to further conference.

Mr. Martin (Dem.) of Indiana, chairman of the Invalid Pensions Committee, then called up the President's veto of the bill for the pension for Hiriam Rhee and moved that it pass. Mr. F. P. Prentiss voted notwithstanding. Mr. Martin said he believed that he could convince the House that if this bill was passed over the President's veto it would be in the interest of the people in the country, and would, moreover, be an act of justice to Rhee, the hero of the revolution.

Mr. Outhwaite (Dem.) of Ohio bitterly attacked the action. He read from affidavits of some of Rhee's acquaintances, alleging that he was a notorious rebel bushwhacker, common robber and a terror to the community in which he lived; and that he was the one who had organized the Sixty-fourth North Carolina Legion; that he had been wounded after war, and that he had been accused of murder.

Congress should, Mr. Outhwaite declared, pass no bill in favor of a man with such a disreputable record. The vote was taken by voice of day, in accordance with the custom of the Constitution, and the bill failed to pass over the veto—96 to 153.

Several bills relating to the District were passed, and the House adjourned.

SENT TO SLEEP.

Reilly Funding Bill Dead for This Session.

Associated Press Leased-wire Service.

WASHINGTON, Feb. 28.—It seems certain now that the Reilly Funding Bill will not be heard from again this session.

Both Messrs. Boaster and Reilly announced that they have abandoned all hope, and that this question must be left to the Fifty-fourth Congress for settlement.

Senator White says that he could now defeat the funding bill alone should it be brought up in the Senate.

"It is a dead issue so far as this session is concerned," said Representative Catchings of the Rules Committee, "and while I have all along desired that something should be done with these roads by this Congress I will not now consent to any measure that might be brought in."

Meantime, Mr. Reilly possibly succeeded in getting his funding scheme attached as a rider to any of the appropriation bills, they would immediately begin to filibuster against the bill, making all sorts of dilatory motions and defeat the bill and thus bring on an extra session.

They will use this threat to keep members who do not relish the idea of an extra session from giving Mr. Reilly any encouragement in his last plan.

WATERS DIVERTED

Cause Great Distress to People in Mexico.

Associated Press Leased-wire Service.

WASHINGTON, Feb. 28.—Charles E. Wiese, Acting United States Consul at Paso del Norte, Mexico, has told in a pathetic way through a report to the State Department the suffering of the people of that section through the drought brought on by the diversion of the waters of the Rio Grande by the agriculturists of Colorado and New Mexico.

He recalls the fact that Mexico by treaty consented to an equal share with the United States of the waters of this river, and shows how a vast tract of Mexican land which formerly produced great crops, is now barren as the result of the operations of irrigation companies in the United States tributaries in Colorado and New Mexico.

Attention is called to the recommendation of President Cleveland that a "mixed" commission be created with power to build a great reservoir at Paso del Norte to store the winter flood waters for use in irrigating lands on the lower river, which for years have been made dry every summer."

NICARAGUA CANAL BILL.

California's Great Measure Has Been Hopelessly Shelved.

Associated Press Leased-wire Service.

WASHINGTON, Feb. 28.—That Congressmen Geary's Nicaragua Canal Bill has died the death is something more than mere seeming. The measure for which California hoped so much has been hopelessly shelved.

Representative Geary is perhaps more disappointed than any other member of the House at the failure of his pet scheme to become a law.

He said: "The present House bill was given more study than any other measure

of this sort that has ever been introduced in Congress. The faults and loopholes which had crept into the Senate bill were all corrected and there was absolutely no chance for robbery. It was a clean, honest measure. I can only attribute its failure to pass to one thing—the large bonus for the concessions which they demanded, and preferred to take chances in another Congress. They have had a strong lobby here, who have done effective work against it, primarily prejudicing the public to the point of almost predestination."

He signed a petition to the Rules Committee signed by about 150 members,

but it did not have the desired effect, they making the excuse that they could not give time so near the end of the session. We would have been satisfied if they had only given us half a day, and I am perfectly confident that the bill would have passed."

Naval Appropriations.

WASHINGTON, Feb. 28.—The Senate Appropriations Committee has amended the Naval Appropriations Bill so as to provide for the building of three gun-boats and three composite light draft gun-boats. There is a reduction of \$450,000 in the House appropriation for armor and armament. The total appropriation is \$25,000,000, a reduction of \$2,639,738 from the total carried by the bill at \$27,639,738.

The principal items of reduction are the following: One hundred and seventy-five thousand dollars for pay of the navy; \$155,558 for reserve supply of guns for ships of the navy, \$242,500 for additional supply of torpedoes, \$500,000 for reserve guns for auxiliary cruisers, \$40,000 for the Mare Island Navy-yard, \$75,000 for the dredging of the harbor at Puget Sound, Wash.; \$100,000 for construction and repair of vessels, \$100,000 for new machinery for the Chicago, \$450,000 for armor and armament of ships.

The only increase is that of \$100,000 for the purchase of forgings and manufacture of guns for batteries for training ships and a reserve supply for ships of the navy.

The cost of the three torpedo boats is \$175,000, and the Senate has provided that they shall be built on the Pacific Coast, one on the Gulf coast, and one on the Mississippi River, unless it appears that they cannot be built so cheaply at other places.

It is learned that France took this step

in order to prevent the introduction of contagious diseases which do not exist in France but are prevalent in the United States among animals of the bovine species, and that cases have been established among animals imported into Europe from that country, it is necessary to take measures to prevent the introduction of these diseases into our territory. Accordingly, upon the advice of the Consulting Committee on Epizootics and on the report of the Counselor of State, the Director of Agriculture decree that the import into or transit through France of all animals of the bovine species from the United States is prohibited, both by our land frontier or by the sea, until otherwise ordered. Animals shipped before February 24 will be allowed entry if imported.

CIRCULATION.

Sworn Weekly Statement of the Circulation of the Los Angeles Times.

STATE OF CALIFORNIA, COUNTY OF LOS ANGELES, SS.

Personally appeared before me, H. G. Otis, president and general manager of the Times-Mirror Company, who, being duly sworn, deposes and says that the daily circulation figures and daily average for the records of the office show that the bona fide editions of the Times for each day of the week ended February 22, 1895, were as follows:

Sunday, February 17.	15,810
Monday, " 18.	15,618
Tuesday, " 19.	15,618
Wednesday, " 20.	15,710
Thursday, " 21.	15,725
Friday, " 22.	15,750
Saturday, " 23.	15,800

Total, 101,905 copies.

Signature, H. G. OTIS.

Subscribed and sworn to before me this 23d day of February, 1895.

J. C. OLIVER,
Notary Public in and for Los Angeles County,

State of California.

NOTE.—THE TIMES is a seven-day paper.
The above aggregate, viz., 101,905 copies, issued by week, will, if apportioned on the basis of a six-day evening paper, give a daily average circulation for each week-day of 16,984 copies.

THE TIMES is the only Los Angeles paper which has regularly published sworn statements of its circulation, both gross and net, weekly, monthly and annually during the past seven years. Advertisers have the right to know the NET CIRCULATION of the medium which seeks their business, and this THE TIMES gives them correctly, from time to time.

The gross daily average circulation of THE TIMES for January, 1895, 14,679 copies, shows a gain of 11.8 per cent. over the daily average, 6,713 copies, for the month of August, 1894, the month of "The strike that failed."

PERSONALS— Business.

PERSONAL ARRIVED—HARRY H. WAITE

the clairvoyant of clairvoyants, and the greatest independent slate-writing medium in the city. He has a remarkable gift with the dead, trance talkers who are true or false to you; tells you lucky days, week, month; gives advice on all matters of importance such as business, love, health, marriage, lost or stolen goods, reunites lost or stolen goods; re-unites; brings peace; marriages; removes stumbling block and bad luck of others; finds you friends with your natural gifts that you succeed; do not delay but go and see this wonderful man at once, who is hard to find without asking you a single question. If you are going to see a medium today, do not see the best. Situations are few and not satisfactory. You are satisfied, he charges 25. Nothing accepted in advance, nor do you pay one cent unless you are fully satisfied. It is not honest! JOHN W. ALVARADO ST. 5

POSTAGE—To all parts of the United States, Mexico and Canada, 3 cents; to all countries within the Universal Postal Union, 6 cents.

AUSPICIOUS OPENING.

The great Citrus Fair opened auspiciously at Hazard's Pavilion last evening. It was an entrancing scene which confronted the vast throng of visitors as they poured through the doors, and exclamations of delight were heard on every side. If the scenes of last night may be accepted as an augury the fair is destined to be a magnificent success in every sense of the word.

In the local column of The Times the hall decorations, the arrangement of the exhibits, the effects of the ensemble, and many interesting details are fully and accurately described. The reader who did not visit the Pavilion last evening will find these descriptions highly interesting, and from them he may obtain a fairly accurate idea of the exhibit as a whole. But no written description can convey an adequate idea of the completeness, the artistic arrangement and the general attractiveness of the exhibition. It can be fully appreciated only by personal inspection.

It was the general verdict of all who had witnessed similar exhibits in the past that the present one is far in advance of any of its predecessors. Too much credit cannot be given to those who have had charge of the arrangements. They have acquitted themselves most creditably, and to their efforts in large part the assured success of the enterprise is due.

No visitor in Los Angeles should leave our sunshine-land without visiting the Citrus Fair, for to do so would be to miss one of the rarest of attractions. Here he will find epitomized some of the chief resources and the pomological wealth of Southern California. The visitor about to return to the icy fastness of his Eastern home should view the exhibit, in order that he may carry in his mental vision a dream of enchantment never to be obliterated by blizzards and cold waves.

Today is Los Angeles day, and every patriotic citizen should embrace the opportunity to visit the fair if possible. Even the Angeleno, who is accustomed to the lavish profusion of fruits and flowers, will be both surprised and delighted with the magnificence displayed at the Pavilion.

THE OLD AND NEW LOS ANGELES.

The old citizen who has been absent a few years comes back to us to find Los Angeles has changed marvelously. It is not alone in the residence portion of the city that the change is surprising, but on our business streets as well, where the humble frame structure is gradually retiring and giving place to the metropolitan brick.

It is not yet a decade since Broadway first showed signs of being transformed from a purely residence street to one almost entirely business in character. The Times was a pioneer in this change and even men of sagacity smiled and shook their heads at our temerity in coming so far south of the then business center. But one glance at the city today is sufficient to show the wisdom of our foresight, for now the finest business houses are to the south of us and Broadway is fast becoming an imposing business rival to Main and Spring. Business, too, is building on this handsome thoroughfare for the future, and rearing its most massive and substantial edifices. Four and five-story brick blocks are going up all along the line to the southward, and our business center is expanding and lengthening till it is fast becoming metropolitan in proportion and in general architecture. Los Angeles is no longer a wooden city, its business part an easy prey to the flames, but a city of brick, showing

of trivial bills which take up a great deal of time and either fail or pass or become dead-letter laws. The Times is unable to see any good reason for prolonging the legislative sessions beyond the limit now provided by law.

The rapidly moving electric cars are not the only danger to traffic on Spring street of an evening, especially when bicyclists dart in and out at a rapid pace. There are other obstructions which have grown rapidly during the past couple of years. There are the bands of zealous religious exhorters who hold forth every evening at half a dozen street corners. It is all very well to fulfill the Master's instructions—"go into the by-ways" and hedge and compel them to come in—but Spring street is certainly not a "by-way." It is the leading business thoroughfare of Los Angeles and ought not to be obstructed in this manner. The side streets just off Spring street would do as well for this purpose, especially as the "brethren" and "sisters" usually possess voices of great power and reach if not of the choicest quality. They should point out "the narrow path" on such side streets as Third, Fourth and Fifth, rather than occupy the "broad path" of Spring street, which, when encumbered with rapidly-moving cars and bicyclists, tamale stands and worshippers, threatens to lead into destruction" of life or limb those who attempt to cross the street.

Gov. James H. Budd evidently has a clinch in the San Quentin wardenship matter. He proposes to have Senator Seymour of San Bernardino appointed Warden Hale's successor. Three of the five directors of the prison are in favor of the retention of Hale, but Gov. Jimmie has notified them that if they continue their opposition to Seymour they will be compelled to step down and out, to be succeeded by those who will favor Seymour. It is conceded that Senator Seymour is a good man for the position, but the manner in which Mr. Budd proposes to enforce his will is, to state it mildly, rather dictatorial.

In a San Diego real estate office two interesting photographs are exhibited. Both pictures were taken in January. One is from New York. It portrays a gang of men digging a locomotive out of a snowbank. The snow walls are eighteen feet high. The second photograph shows a score or so of men and boys about to plunge into the waters of San Diego Bay for a swim. The contrast of climatic conditions in January, as evidenced by these photographs, between New York and San Diego, astonishes Eastern people. Southern Californians look upon it as a matter of course.

The new postoffice building at Washington is nearing completion with the most marvelous lack of celerity. Three years have elapsed since work on it was commenced, yet the third story framework is still incomplete. The men at work on it are accomplishing their task as slowly as is this Democratic Congress in its attempt to rear a financial structure for the country's benefit. But it is to be hoped that in the end the failure will not be so great.

At a meeting held yesterday, the Merchants' Association of San Francisco decided to co-operate with the Merchants' Association of Los Angeles in the promotion of our annual festival or fiesta. This action on the part of the San Francisco merchants is generous; it is kindly; it is complimentary. Los Angeles will not forget to do the handsome thing by San Francisco when an occasion presents itself.

It is evident that the machine politicians of New York do not yet appreciate the fact that the decided victory which was achieved at the polls in New York last November was the triumph of decency over corruption and not of any political party. It takes time to open the eyes of the willfully blind to things that they have no desire to see.

Sending coals to Newcastle isn't a circumstance to sending California oranges to Florida. A carload was sent from Pomona last week by the San Antonio Fruit Exchange, destined for St. Augustine. They will be used principally in the hotels and the Pomona Times says they will do a lot of missionary work for Southern California.

The irreverent Cincinnati papers are telling a joke on a church of that city which advertised in flaming headlines that the subject of the sermon on a certain night would be "Who Will be in Hell?" and added the hospitable words: "Everybody will be made welcome." The church was filled to overflowing.

A Louisville revivalist has stirred up a decided sensation by declaring that if he wished "to send a boy to hell he would put him in the arms of a society girl." This is pretty strong language, but doubtless there are numerous young men in Louisville who would be perfectly willing to risk the experiment.

England regards Grover Cleveland as "the greatest American President." In one sense he is undoubtedly so, though he has reduced his "greatness" by some forty-five pounds during the last few weeks with the help of a "massue," according to recent Washington advice.

The Bank of England's rate of discount is quoted as 2 per cent., where it has remained for a long time. This indicates that there is a great deal of idle money on hand there. Perhaps it is waiting for another bond issue by Messrs. Cleveland, Carlisle & Co.

The Tulare Register advocates an extension of the statutory legislative session to 100 days, in lieu of the present sixty days. The idea is not calculated to be popular and can hardly be sustained by valid arguments. Sixty days is a sufficiently long time for the regular biennial sessions if the members of both houses would attend strictly to business and not fritter away their time in needless adjournments and dilatory proceedings. More than one-half of every regular session is frittered away. Another great evil which needlessly protracts the sessions is the introduction of a vast number

of drapes and lemons. Copies of the table, in convenient form for mailing, can be obtained at the San Diego agency of The Times.

The national capital is moving in the direction of obtaining a better water supply for the city. It is going to try the effect of sending a petition to Cleveland's Congress. But what is a Democratic Congress supposed to know about pure water?

The establishment of a State Normal School at San Diego seems nearer realization than ever. The legislative committee having the matter in charge recommends an appropriation of \$35,000 for this purpose, and favors San Diego as the site of such a school.

It is announced from Washington, D. C., that Mrs. Grover Cleveland has joined the W. C. T. U., But Grover will continue to take along an ample supply of "bait" just the same, when he goes on his hunting and fishing excursions.

According to the official meteorological report for the past seventeen years, we may expect a total rainfall in March of 2.86 inches. We may also expect twelve entirely cloudless days, twelve partly cloudy days, and seven cloudy days.

A bill introduced at Sacramento by Senator Hart proposes to appropriate \$25,000 "to ventilate the Capitol building." If report be true there are some things about that fine structure which very much need ventilation.

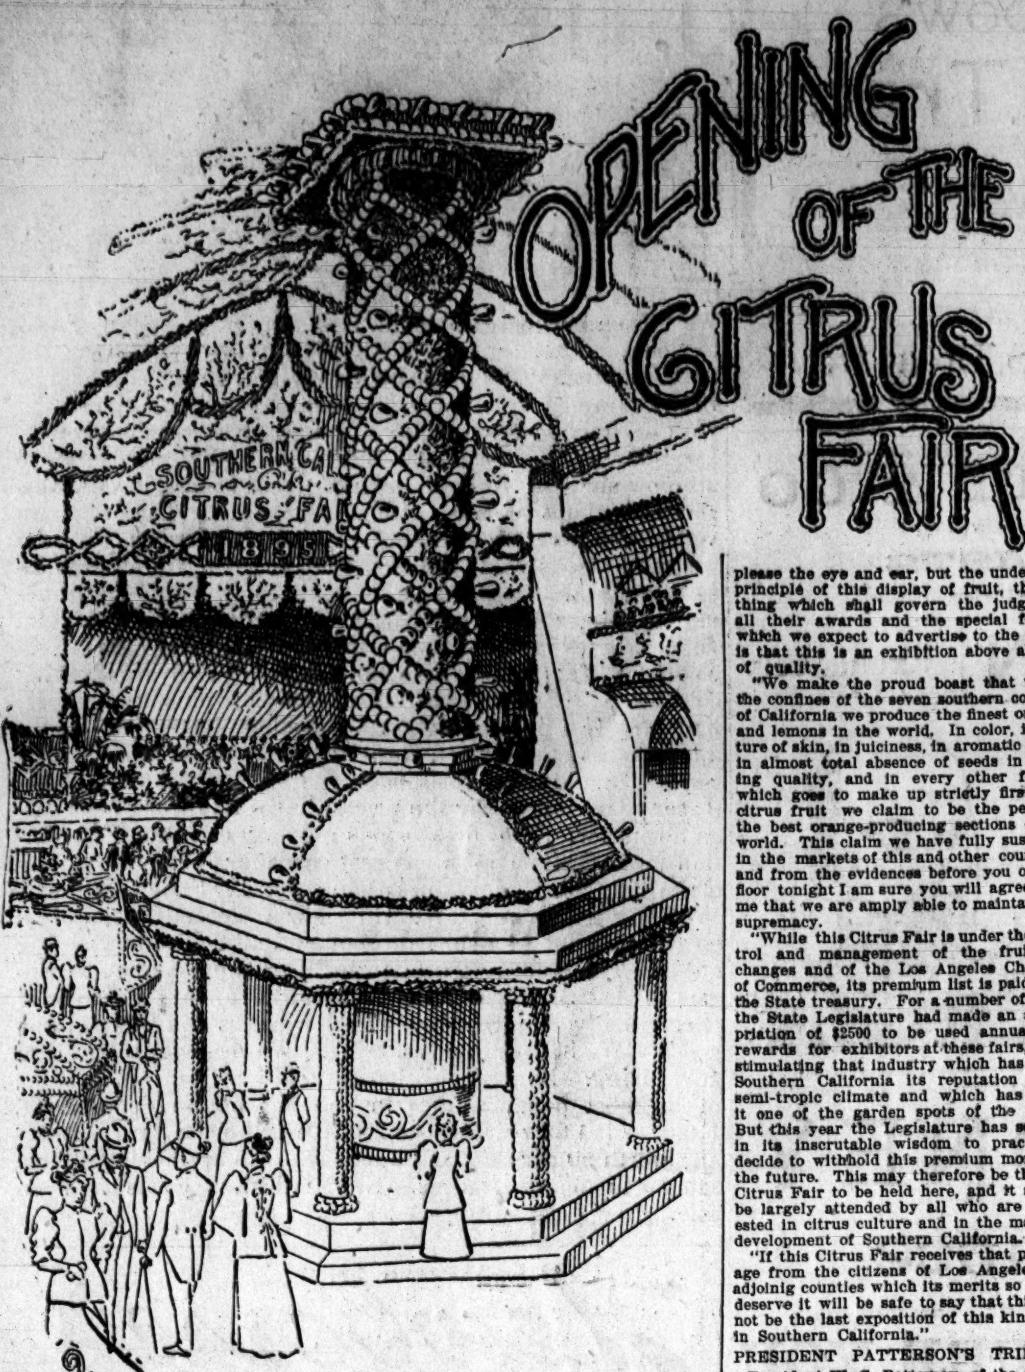

A fatal disease is said to have seized upon the Prince of Wales, while Queen Victoria's health continues fairly good. It isn't at all safe to bet that H. R. H. will ever become King of England.

Already the project of erecting a monument to the late Frederick Douglass is under discussion. Indeed, it follows hard upon his death.

The knife is still in operation. Freight rates between Seattle and Alaska have been reduced from \$10 to \$5 per ton.

AT THE PLAYHOUSES.

LOS ANGELES THEATER.—Neille McHenry, as aftervease as ever, came back to us last night and was greeted by big house, one particularly so above stairs. Her play, "A Night at the Circus," is a farce-comedy that out-Hoys Hoyt, and even out-Doucetts H. Grattan Donnelly, who is guilty of having constructed it. The piece has a plot to be sure, but not one in any ways novel, nor one that cuts much figure in the performance. It is Neille McHenry and the snappy and jolly people that surround her who fill it full of "gig and go" and that save the play from the darning it deserves. Age has done kindly with the star of last night's bill at the Los Angeles, and she is just as lively, gay, volatile and jolly as she was years ago when she played "Fun in the Greenroom," and the like of that, and she has imbued those in her support with her irresistible and enterprising liveliness. In the course of the performance there are numerous bright and engaging specialties that set the house roaring with laughter or ringing with applause; breezy topical songs, "Dont You Think So," a duet by Miss McHenry and Mr. Bradbury, being especially catchy—graceful dances, lively diversions by little and shapely girls; some clever wing dancing by Billy Barry, Jr., down on the bills as Kickers; some pleasing singing by Dorine Dymock, who sang "O Promise Me" with rare sweetness and expression in a strong contralto and an overawing bodice; breezy topical songs, "Dont You Think So," a duet by Miss McHenry and Mr. Bradbury, being especially catchy—graceful dances, lively diversions by little and shapely girls; some clever wing dancing by Billy Barry, Jr., down on the bills as Kickers; some pleasing singing by Dorine Dymock, who sang "O Promise Me" with rare sweetness and expression in a strong contralto and an overawing bodice; breezy topical songs, "Dont You Think So," a duet by Miss McHenry and Mr. Bradbury, being especially catchy—graceful dances, lively diversions by little and shapely girls; some clever wing dancing by Billy Barry, Jr., down on the bills as Kickers; some pleasing singing by Dorine Dymock, who sang "O Promise Me" with rare sweetness and expression in a strong contralto and an overawing bodice; OPENING OF THE CITRUS FAIR

please the eye and ear, but the underlying principle of this display of fruit is that it is a work of art, and the judges in all their awards and the special feature which we expect to advertise to the world, is that this is an exhibition above all else of quality.

"We make the proud boast that within the confines of the seven southern counties of California we produce the finest oranges and lemons in the world, in color, in texture of skin, in juiciness, in aromatic flavor, in almost total absence of seeds in keeping quality, and in every other feature which goes to make up strictly first-class citrus fruit we claim to be the peers of the best orange-producing sections of the world. That claim we have fully sustained in the past by our sales to other countries, and from the evidences before you on this floor tonight I am sure you will agree with me that we are amply able to maintain our supremacy."

"While this Citrus Fair is under the control and management of the fruit exchanges and of the Los Angeles Chamber of Commerce, its premium list is paid from the State treasury. For a number of years the State Legislature had made an appropriation of \$2500 to be used annually in rewards for exhibitors at these fairs, thus stimulating that industry which has given Southern California its reputation for a semi-tropic climate and which holds it one of the leading spots of the world. But this year the Legislature has seen fit in its inscrutable wisdom to practically decide to withhold this premium money in the future. This may therefore be the last Citrus Fair to be held here, and it should be largely attended by all who are interested in citrus culture and the material development of Southern California."

"If this Citrus Fair receives that patronage from the citizens of Los Angeles and adjoining counties which its merits so richly deserve it will be safe to say that this will not be the last exposition of this kind held in Southern California."

PRESIDENT PATTERSON'S TRIBUTE.

President W. C. Patterson, of the Chamber of Commerce, followed, and having been gifted by Dame Nature with a powerful but well-modulated voice, he so used it as to make himself distinctly heard throughout the building. He spoke as follows:

"Mr. Chairman, Ladies and Gentlemen: In the name of the Southern California Association of citrus fruit producers, I present to you the progress of citrus fruits have turned aside to spend a little while in mutual comparisons of results and in presenting the gorgeous object lesson, which, like a dream of golden beauty, is spread before us tonight."

"In the preparation and arrangement of this display the Los Angeles Chamber of Commerce has done its best to help and cooperate. In behalf of that body, which is always ready to put its shoulder to the wheel in advancing the interests and in forwarding all proper efforts to enhance the beauty and wealth of Southern California, I extend to one and all a sincere and cordial greeting."

"It would be neither proper nor fitting for me to speak at a momentary part of this occasion; the beautiful exhibits speak for themselves."

"I am disposed to take advantage of this opportunity, however, to congratulate the fruit-growers of Southern California upon the success which has followed the adoption of systematic methods in the disposition of their crops. It has been strange to me to see how the various associations have come to the indomitable perseverance of the American citizen. Much of the wisdom possessed by these men has been dearly bought, but like the pearl of great price, it is of inestimable value now."

"It is proper that an industry which produces annual incomes of more than \$10,000,000 in the fruit-groves of Southern California should be placed before the public in so magnificent a manner as citrus culture is shown here tonight."

"It is proper that the display of this fruit should be made under the direct control of the producers themselves—this Citrus Fair, being managed almost exclusively by the fruit exchanges of Southern California, whose membership is limited to actual producers of oranges and lemons."

"It is proper that the men who have developed citrus culture on this practically virgin soil, and also have brought it to the eyes and disturbing to visitors in this side of the world. The Pavilion is too small to permit of this effect, which was pretty enough at Chicago and San Francisco. Wherever one may be the constant variation of light rivets the attention and destroys anything like a reposeful investi-

gation of the many other attractive features of the exhibition.

But that is but a spot upon the surface of the sun, and when the opening strains of the "Tannhäuser" overture were heard, the 3000 and odd people present hushed themselves, and the previous exercises of admiration and delight were stifled by the silence. A torch dedicated to the Chamber of Commerce was composed by Cassaza for the occasion, followed, after which the short ceremonial incidental to the opening of the sixth Citrus Fair was gone through with.

THE OPENING EXERCISES.

The acoustic properties of the Pavilion are indifferent—put it mildly—under ordinary conditions, but last evening the golden fruit and the beautiful decorations had transformed a bare building into a bower of beauty seemed to have exaggerated a hundredfold the acoustic defects. Very wisely, however, the opening exercises were pointed but brief.

THE OPENING EXERCISES.

The acoustic properties of the Pavilion are indifferent—put it mildly—under ordinary conditions, but last evening the golden fruit and the beautiful decorations had transformed a bare building into a bower of beauty seemed to have exaggerated a hundredfold the acoustic defects. Very wisely, however, the opening exercises were pointed but brief.

ONE OF THE NEWSPAPER BOOTHS.

face of the earth are oranges produced in such quantities and such excellent quality, on such a limited average, as is done in Southern California, and nowhere else on the wide globe are the oranges produced here. These golden globes so gaudily massed before you tonight are the products of the labor of peons or ill-paid servants, slaving for a mere existence and working only that crust may be provided for hungry mouths. These seeds were planted in the sand, and fruit picked and boxes packed for market by the very men whose purses are enriched by the price paid for the fruit by the con-

sumers.

It is this phase of citrus culture peculiar to Southern California which is developing the great circle of commerce of the state.

The aesthetic display of many colored and gleaming from out their green and golden settings, the beautiful and unique display of rich and glossy fruit, together with the choice music to be furnished here from day to day are but sensuous things to

THE FEATURES.

The central tower is the crowning glory of the exhibition. It is a model of Editor's famous electric tower, with oranges in the place of lights. The central shaft

is a mass of evergreen, against which are traced double spirals of oranges, with a colored incandescent light in the center of each diamond. The capital is bordered with lights and surmounted by a grand staircase and the dome below is of solid oranges with rings marked by green incandescent lamps, while the border lights are embedded in cypress. The small pillars supporting the dome are also done solidly in oranges, and brilliant lights flash everywhere with an indescribably dazzling effect.

From this brilliant tower as a center stand the huge tables which contain the exhibits of the fair.

The plan is that of an Italian garden and the glowing parterres of fruit present a mass of color hard to equal in less favored lands. All the finest products of this land of sunshine are shown; and all are so perfect that the spectator feels an involuntary twinge of compassion for the unhappy judge who shall be called upon to decide, which of these shall bear the

prize.

THE EXHIBITS.

Nearest the entrance is the San Diego exhibit, arranged upon two large tables occupying nearly 500 square feet of space. The first table is a small, fine display of crystallized fruit jellies, marmalades, orange and lemon cordial by Mrs. McLean; and tall jars of tempting-looking olives, flanked with bottles of the golden oil, shown by F. Kimball of National City. The table is bordered with oranges which are also arranged in pyramids at the corners. Plates of special fruits are shown, with seeds, paper-rind lemon or

Bonnie Brae.

The second table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The Duane table stands back of San Fran-

cisco, and occupies 25 feet of space. This is very skillfully designed and shows great care in the working out. The border is

one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The third table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The fourth table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The fifth table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The sixth table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The seventh table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The eighth table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The ninth table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The tenth table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The eleventh table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The twelfth table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The thirteenth table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The fourteenth table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The fifteenth table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The sixteenth table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The seventeenth table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The eighteenth table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The nineteenth table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The twentieth table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The twenty-first table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The twenty-second table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The twenty-third table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The twenty-fourth table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The twenty-fifth table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The twenty-sixth table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The twenty-seventh table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The twenty-eighth table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The twenty-ninth table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The thirtieth table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays. The basket is filled with oranges, and baskets of the golden fruit are scattered over the table among the pyramids of oranges and pomelos and the tall jars of lemons. The edge of the table is outlined with lemons, and the whole effect is very soft and pretty in color and form.

The thirty-first table of this exhibit is one of the most artistic in the building. Instead of the usual massive arrangement there is a bed of soft, gray-green moss covering the entire table. The centerpiece is a huge wire basket, lined with moss and decorated with calas and ivy sprays

THE PUBLIC SERVICE

A Special Session Held by the City Council.

Two Appointments Made but Action on the Third One is Deferred.

The Office of Meat and Milk Inspector Will Probably be Filled by the Board of Health—General Court News.

At the City Hall yesterday the City Council elected a manager of the free labor bureau and a plumbing inspector. The election of a meat and milk inspector was attempted, but the matter was finally laid over. The Park Commission held a short meeting and transacted a small amount of business.

At the Courthouse yesterday few matters of general interest were disposed of, although all six departments of justice were busy. In the Criminal Court a youth named Hermann Janner was tried and acquitted upon the charge of burglary, and Chris Hepchen was discharged for lack of evidence. The Long Beach damage suit was resumed, but not concluded.

AT THE CITY HALL.

The City Council. BOTH LABOR BUREAU MANAGER AND PLUMBING INSPECTOR APPOINTED.

The City Council yesterday elected a plumbing inspector and a manager of the free labor bureau, but failed to elect a meat and milk inspector.

The Council met in special session at 11 a.m., all the members being present. Councilman Munson said that Mr. Gougher, whose application for an extension of time on his contract for the grading and otherwise improving of Ingraham street had been denied, had stated that he did not get the proper grade stakes, so that he could proceed with the work, until twenty-one days after the time at which he would otherwise have begun it.

A plumbing inspector had been allowed a considerable extension of time, and, under the circumstances, it appeared to be no more than fair that a reasonable extension should be allowed Mr. Gougher. On motion, the contractor was granted an extension of twenty-one days.

On motion the election of a manager of the free labor bureau was proceeded with, and nominations for the position were made as follows: C. E. J. White and A. L. George, by Councilman Teed; C. J. Muret, by Councilman Ashman; Daniel Jones, by Councilman Stockwell; J. J. Welsh, by Councilman Kingery; John J. Meritt, by Councilman Snyder; D. J. Carr, by Councilman Savage, and H. Glaze, by Councilman Munson.

On the second roll-call White was voted for by Councilman Blanchard, Muret by Councilman Ashman, Jones by Councilman Stockwell, Carr by Councilman Pessell, and Glaze by Councilman Kingery, Munson and Teed.

After a conference of the members of the Board of Health, it had been decided to postpone the election of meat and milk inspector. Drs. Blackington and Morrison, or any other veterinary surgeon. Councilman Blanchard moved to reconsider the vote by which the motion of Councilman Snyder, to direct the City Attorney to present an ordinance amending the ordinance in reference to a meat inspector so as to provide that he should be appointed by the Board of Health, was lost.

This motion prevailed, and the original motion of Councilman Snyder, to have the ordinance amended so as to give the Board of Health the appointment, being passed. It was voted, however, that the matter be adjourned, so as to provide that he should be appointed by the Board of Health, was lost.

This motion prevailed, and the original motion of Councilman Snyder, to have the ordinance amended so as to give the Board of Health the appointment, being passed. It was voted, however, that the matter be adjourned.

The Park Commission. COUNCILMAN TEED COMPLAINS TO THE BOARD.

The Park Commission had a short meeting yesterday morning, all the commissioners being present except Mr. Gross.

Councilman Teed appeared before the board, and complained that, some time ago, the City Council made an appropriation for the placing of a fountain in St. James Park. The sum appropriated was \$200, but a fountain costing only about \$20 had been placed there.

This fountain had not been completed, and Teed desired that it should be at the earliest practicable time.

The sewer near the place had been finished, and was ready for use, so that there need be no further delay in connecting the fountain with a water supply, and having the water running, for the drainage from the fountain could run into the sewer.

Councilman Blanchard reported that there had been religious gatherings in Central (formerly Sixth Street) Park on Sundays. The fact had caused a good deal of comment, and he had instructed the foreman there to enforce the ordinance prohibiting such gatherings from being held in the public parks.

Councilman Teed said that he thought the board should support the superintendent in the enforcement of the ordinance bearing on the matter.

It was explained that the gatherings had been held by Baptists, and the Mayor remarked that he had no objection to any form of entertainment provided that suitable buildings had been in the habit of holding open-air meetings in any of the parks.

J. Barnshaw of Cincinnati, O., was heard in reference to the most approved plans adopted for park development in Eastern cities. He said, among other things, that extensive open-air meeting places had repeatedly demonstrated the fact that a liberal development of the parks is a valuable aid to a city's growth.

The pay-roll of the department for the month of February was approved; and, after acting on a few matters of minor importance, the board adjourned an extra session.

On motion the election of a manager of the free labor bureau was proceeded with, and nominations for the position were made as follows: C. E. J. White and A. L. George, by Councilman Teed; C. J. Muret, by Councilman Ashman; Daniel Jones, by Councilman Stockwell; J. J. Welsh, by Councilman Kingery; John J. Meritt, by Councilman Snyder; D. J. Carr, by Councilman Savage, and H. Glaze, by Councilman Munson.

On the second roll-call White was voted for by Councilman Blanchard, Muret by Councilman Ashman, Jones by Councilman Stockwell, Carr by Councilman Pessell, and Glaze by Councilman Kingery, Munson and Teed.

Under Nadeau Hotel. AT THE COURTHOUSE.

The Courts. A TOWNSHIP COURT JUDGMENT RENDERED BY JUDGE SHAW.

The case of Thomas Jones vs. the Los Angeles Consolidated Electric Railway Company, an action to recover a small sum of money alleged to be due on account of services rendered, came up for trial before Judge Shaw in Department Five yesterday, on appeal from the Township Court.

The plaintiff alleged that he was employed by defendant as a motormen during the months of September and October last, but that the defendant refused to refund his deposit of \$35, or pay him for his services, which amounted to \$38.25.

Judge Shaw, after hearing the defense, denied the plaintiff's claim, as prayed, by Judge Clark yesterday.

The bill of exceptions in the case of John Bullock vs. Jones Taylor et al., was duly settled by Judge York yesterday morning, and the motion for the new trial was denied.

Judge York partially tried the case of Alfred Moore, Jr., vs. the City of Los Angeles, an action to determine conflicting claims to a tract of land bounded by the Mission road, the Brooklyn tract, Macy and Gialardo streets, the latter tract partially overlapping the defendant's property.

Judge York denied the motion for judgment of non-suit, but the motion was denied and the matter went over to a jury.

Thomas Davidson, a Scotchman, was duly admitted to citizenship of the United States by Judge Shaw yesterday upon producing the necessary proof of qualification and age.

The defendants in the case of the National Bank of California vs. Maria J. de Shorb et al., an action to foreclose a mortgage, having allowed the matter to go by default, Judge McKinley yesterday morning entered a decree for the plaintiff in favor of the plaintiff.

The defendants in the case of the National Bank of California vs. Maria J. de Shorb et al., an action to foreclose a mortgage, having allowed the matter to go by default, Judge McKinley yesterday morning entered a decree for the plaintiff in favor of the plaintiff.

The trial of the damage suit instituted by Henry C. Bailey of Long Beach against the Los Angeles Terminal Railway Company, was recently heard before Judge McKinley and a jury in Department Six yesterday afternoon.

Walter Boydston, a young negro, was examined before Justice Wilson in the San Gabriel Township Court yesterday and held to answer to the charge of burglary under bonds in the sum of \$100. Boydston is accused of having entered the Five-mile House, near Alhambra, recently, and stolen therefrom a bottle of whisky and several boxes of cigars.

New Suits. DISCHARGED FOR LACK OF EVIDENCE

When the case against Chris Hepchen, charged with having assaulted a tramp named John Lovard with a deadly weapon, on Christmas day, December 25 last, was called for trial in Department One yesterday morning, the complainant failed to appear. Deputy District Attorney McComas informed the court that due diligence had been used in searching for the missing witness, but he had disappeared after being discharged from the Receiving Hospital. The evidence being wanting, the court, on the conviction of the defendant, without further testimony, the case was dismissed by Judge Smith and the defendant discharged.

SELF-CONFESSING BURGLARS SENTENCED.

Upon motion of the District Attorney information was filed in Department One yesterday morning charging John Woods and W. M. McMahon with the burglary of Cyrus Cary's store on February 15 last. The defendants being in court were duly arraigned, and, after awaiting a trial date, were sentenced to imprisonment in the State prison for three years, Woods, at San Quentin and McMahon at Folsom.

SENT TO HIGHLANDS.

In accordance with the recommendation of Drs. Boynton and Kierulf, the commissioners by whom she was examined, Mrs. Mary C. Perkins of Redondo Beach was duly adjudged insane and committed to the State Asylum at Highlands by Judge Clark yesterday afternoon.

Mrs. Flores, for whom there was no evidence of Illinois, 44 years of age. She has twice been confined in asylums the past ten years, and for the past week has been under treatment at the County Hospital.

President Teed, who had called Councilman Munson to the chair, asked to have read the ordinance providing for the appointment of a meat and milk inspector. The Council resolved to move the Board of Health to recommend to the Council a person to fill the office. This motion was adopted without any opposition being manifested and without a roll-call being demanded.

President Teed said that the board had selected the man whom they wanted. He had understood that the board would select a pet candidate, and if it were to select such a man, the Council might decide to elect some other.

Dr. Karl Kurtz of the Board of Health was heard on the subject. He said that the board had no choice, but wanted to have selected the man whom they wanted who could properly diagnose any cases of appendaged disease, meat, or diseased animal, that might come before him.

It was not necessary that the position should be filled by a man who held the diploma of some particular college, but it was desired that the board should be able to examine before the board as to his knowledge of such diseases as are likely to infect meat that is offered for sale. At least one veterinary surgeon in the city had agreed, if elected to the position, to devote eight hours per day to the duties of the office.

President Teed said that he could not see how a veterinary surgeon could give so much time to the office with a salary of only \$75 per month, but if the man elected would do it, it would be satisfactory to the Council.

Councilman Snyder moved that the City Attorney be directed to amend the ordinance amending the ordinances regrading the office of meat and milk inspector, so as to provide that the office should be appointed by the Board of Health. He said that he thought that if the Board of Health were to have the naming of the man, the responsibility for naming him might as well be taken out of the hands of the Council. This motion was lost by a vote of all the members except Peasey, Savage, and Snyder.

President Teed then moved the adoption of a resolution to the effect that it be the desire of the Council that the meat and milk inspector give his whole time to the duties of his office.

A recess was taken for a few minutes, after which Dr. Carl Kurtz stated that,

the Probate Court yesterday Mrs. Josiah Alkire filed a petition praying for the admission of the will of Josiah Alkire, deceased, who died at Pomona on February 4 last, leaving an estate consisting of real and personal property valued at \$100,000.

The defendants in the case of the National Bank of California vs. S. E. Bos-

HOUSE AND LOT.

The Broadway Boom is Flat-tenting Out.

Troubles of Real Estate Dealers—Why not Try to Organize? Full Together.

The Northwest—Boyle Heights—The Boulevard—Oil on First Street—A City Colony—Building Notes and Permits.

The real estate market has been steady during the week, with a good demand for things in the shape of bargains.

THAT BROADWAY BOOM.

No important transactions on Broadway have been reported during the week. The fact is that the predictions which have been made in this column during the past few weeks are coming true. Owners of property on Broadway have been advancing their figures so rapidly that investors and speculators are being driven off to Spring and other streets. A couple of weeks ago a man who has a piece of property on Broadway in the neighborhood of Sixth street put it into the hands of a real estate agent to sell at the price of \$250 per foot. The agent worked hard for ten days and at length found a purchaser. On going to the owner, the latter informed him that he had raised his price to \$400 a foot. Of course the trade was off. This is a very good way to check progress on a street. Of course, if a property-owner does not care to accept it is all right. Property on Broadway is as good as that to "live in the city" and be thought of. However, a person really wishes to dispose of his property it is foolish to jump prices in this manner. The probability is that the highest point in Broadway property has been touched for at least a year, and those who want to sell would do well to accept a good offer when they get one.

A price of 250 per foot on which is based on Spring, Main and Hill, offer greater inducements to the judicious investor than South Broadway. Undoubtedly the best of all investments in inside business property today is on North Broadway, between First and Temple. The Times has frequently called attention to the opening for investment in this direction. A man who buys frontage on North Broadway at present prices has an excellent prospect—a good probability in fact—of doubling his money within twelve months. Within a few hundred feet north of First street property can be bought at \$200 a foot, while \$700 is asked for property just south of First, and not far from the 200-foot line along with a stone's throw of the business center, and put up a plain, inexpensive three-story brick building can count on making the biggest kind of interest on his money, as well as doubling his capital within a very short time. It is remarkable that the investors, so slow in this field, take to a considerable extent of the habit of sheep and run together this way or that way according to the prevailing craze. The opening of North Broadway beyond Temple street, which cannot much longer be delayed, will make this thoroughfare one of the most traveled streets in the city, it being on the direct road to East Los Angeles and the country along the Los Angeles River north of the city. The Times ventures to prophecy that before long there will be a boom in North Broadway property and then a good many people will wonder how it is that they did not see the chances for investment which exist today.

THE REAL ESTATE BUSINESS.

The reference which was made above to a case in which a real estate agent wasted ten days of his time because the owner of a piece of property went back on his word, emphasizes the fact that there is a crying demand for some organization among the dealers in "dirt." The prominent real estate men of the other day said that the Los Angeles real estate dealers, although they number in their ranks men of ability and high character and transact business amounting to millions of dollars every year, are really not much more highly regarded, as a class, than a lot of curtain-stone breakers and fakers.

Among the improvements that Los Angeles is likely to have in the near future is a Masonic Temple. The plan outlined is to involve an expenditure of \$50,000, of which \$12,000 would go for the lot, leaving \$38,000 for the building, furnishing, etc.

NEW BUILDINGS.

The Builder and Contractor notes the following uncontracted work:

Plans are being prepared for a three-story brick block for J. White of Alhambra and C. Hickson of this city, to be built on First street between Main and Los Angeles streets. It will have a basement, three stores on the first floor, and five rooms on the second and third floors, to cost \$15,000.

M. Shields is having plans drawn for a two-story, eleven-room dwelling, to be built on the corner of Twenty-third and Hoover streets. It will cost \$6000.

Mr. Edwards will build a nine-room, two-story dwelling in Niles.

Plans are being drawn for S. K. Landry for a nine-room, two-story dwelling, to be built in the Nob Hill tract.

Plans are being prepared for a two-story residence Swiss style, for Dr. McCoy, to cost \$2500.

BUILDING PERMITS.

The following are among the permits issued by the City Superintendent of Buildings:

George Kerckhoff, two-story dwelling, northwest corner Seventh and Los Angeles streets, \$3005.

S. C. Kropnick, dwelling, southeast corner of Tenth street and Burlington avenue, \$2500.

H. Klages, stores and flats, southwest corner Seventh and Alvarado streets, \$2500.

Mrs. F. D. Fitch, two-story dwelling, Crocker street between Fifth and Sixth streets, \$3000.

C. E. Donnatin, dwelling, Savoy, between Buena Vista and Bishop streets, \$2000.

Bernard Fanta, dwelling, southwest corner Tenth street and Union avenue, \$3400.

L. E. Tyler, dwelling, Council between Union avenue and Belmont, \$3500.

THEY WILL COME AND GET IT.

The Tabor Carriage Works will put your carriage or buggy in order for very little and return it looking like new. Tel. No. 408.

OIL-WELL Supply Company of Pittsburgh, Pa., are represented on the Pacific Coast by an operator of many years' experience in the Eastern oil fields. All information regarding drilling for oil, laying pipe-lines, building of large iron tanks, etc., furnished free on application at our branch office, room No. 41, Bryson Block.

ELECTRIC OIL HEATERS.

There are no stoves on the market that approach these. They are the best made, the strongest heating, the most perfect work, and their glass doors provide giving the best and purest combustion. It is possible to secure a stove of this kind. The evaporation of water in the reservoir, heated with the burner, causes the most beautiful atmosphere in the room. One will last a whole season. They are graceful and elegant, and will fit any room. See them at the W. C. Furley Stove Co., Nos. 159 to 165, North Spring street.

ACTION sale at Heng Lee's store. The entire Japanese and Chinese art goods. Same day, morning, afternoon and evening. Nos. 605 North Main, opposite Plaza.

LA FIESTA.

AN APPEAL TO SOUTHERN CALIFORNIA MANUFACTURERS.

Members of the Social Clubs Here and Elsewhere Also Invited to Swell the Throng of Participants.

As the time for the fiesta approaches the detail work of the advisory board and the numerous committees is assuming larger proportions, and the deliberations of the board resemble those of an extensive public deliberative body.

It has been found necessary by the advisory board, in order to establish methodical regulations, and the chairman of the different committees make their reports at the Wednesday-night meetings, the board afterward taking up and passing upon them. On Saturday nights the meetings for general discussion are proving very attractive.

Yesterday the advisory board held a meeting at which they considered several reports, among them being that of the Amusement Committee making recommendations for the grotesque tournament of sports to be given on Saturday night of carnival week, and the suggestions of the committee were approved.

The report of Chairman John H. F. Peck of the Committee on Trades and Manufactures was also approved. This committee has prepared quite elaborate address to the manufacturers of Southern California, which will be sent out to every one in the section asking them to participate in this important feature of the fiesta celebration. The address describes in eloquent terms the growth of the manufacturing interests of all kinds in Southern California, and, while admitting that they are still in their early stages, illustrations tending to show that they are of much greater magnitude than many people suppose.

The committee speaks of the immense benefit that an adequate presentation of these different interests will be to manufacturers themselves, as well as to Southern California, and urges every one to take the time and trouble necessary to give the carnival a success. The committee is of the opinion that the public will appreciate the variety and volume.

The committee has received assurances that some very striking floats will be prepared in this line, and are working to make their department a brilliant success.

Chairman W. W. Robinson of the Committee on Social Organizations said yesterday that there are quite a number of social organizations in the city and elsewhere which will be asked to participate in the parades in some manner. He thought it was not essential that their participation should be merely by their presence as organized bodies, but that with some of them at least they might prefer to get up some original design of their own, such as an artistically-decorated coach or float for the floral parade. The committee will give them the utmost latitude in their plans.

Cordial invitations have been extended to the Grand Army posts in Southern California to participate in the fiesta parades by floats or in such manner as will be most acceptable to their members. It is understood that the Soldiers' Home will be represented in an appropriate manner.

The collection committee are at work arranging for different districts of the city mapped out for them, and are meeting with good success. Among the collections subjoined are those of \$1500 each by the Southern Pacific and Southern California Railway companies, indicating the importance given to the carnival by them.

The following collections, in addition to those heretofore received, which amounted to \$3000, were obtained yesterday afternoon from the Finance Committee:

Heretofore reported, \$5232; E. J. Baldwin, \$100; Maier & Zobelsin, \$100; Cudahy,

Packing Company, \$100; First National Bank, \$200; Temple-street Railway Company, \$100; Coulter Dry Goods Company, \$100; Anderson & Charles, \$100; Mainland and Agricultural Products Railway, \$100; F. W. Brauns & Co., \$100; Southern Pacific Railroad Company, \$100; L. W. Godia and Rochester Shoe Company, \$50; L. Roeder, \$50; Southern California Cracker Factory, \$50; Pacific Coast Shredder Company, \$50; Wilcox estate, \$50; Sunset Telephone Company, \$50; S. N. Norwaker, \$50; S. J. Hinman, \$75; Frank Arcadia de Bakker, \$50; H. Newmark & Co., \$50; Lazarus & Melzer, \$20; J. M. Elliott, \$20; Howland & Chadwick, \$25; Charles Silent, \$20; Southern California Packing Company, \$25; Blake, Moffit & Towne, \$25; Murphy, Grant & Co. (S. F.), \$25; Bishop Montgomery, \$25; Luis Zoebel, Unique Glove Company, \$20; Fixen & Co., \$25; total, \$10,603.

Licensed to Wed.

Marriage licenses were issued at the County Clerk's office yesterday as follows:

Frank Petrucciani, a native of Italy, 25 years of age, to Lucy M. Elliott, 23 years of age, both of Illinois; 28 years of age; both of this city.

Jose M. Lugo, a native of California, 25 years of age, to Amparo Alvarado, also a native of California, 21 years of age; both of this city.

Frank M. Odell, a native of Wisconsin, 24 years of age, to Bettie Elliott, a native of Mississippi, 24, years of age; both of Glendale.

Chester C. Ashley, a native of New York, 27 years of age, of this city, to Grace E. Booley, a native of Pennsylvania, 20 years of age, of Pasadena.

THE HEATING CAPACITY OF MY SMALL PUPHANE

Is equal to others that are three sizes larger.

F. E. Browne, No. 314 South Spring street.

Shotgun Messenger.

(Bakersfield, Calif.)—A bill has been introduced into the Legislature making it unlawful for any armed guard or messenger to ride in or upon any stage coach or other conveyance or on any express wagon, mule or other animal, money, treasure or other valuable things, in the custody or under the control of any express company as a common carrier is usually carried, at any time when such stage-coach, wagon or other conveyance is carrying any passenger or luggage for hire. The bill provides that any person, white act as such guard or messenger, who violates the above provisions shall be guilty of a misdemeanor. The bill makes it the duty of all express companies doing business as such in this State to provide a coach or wagon for all express messenger accompanying any express matter, bullion, etc., under the control and in the care of such company, a means of conveyance distinct and apart from any conveyance carrying passengers for hire. Appropriate penalties are provided for any violation by the stock companies of the provisions of the act.

It is not apparent what necessity there is for such an act as this. It is absolutely essential that the express company properly guard the treasure intrusted to it, and passengers on coaches carrying bullion and shotgun messengers are fully aware of the risk they take.

Very Thoughtless.

"Will you have a little hair tonic, sir?" asked the artist who was completing Cholly Colman's toilet.

"Ha! hair tonic!" he exclaimed, getting out of the chair. "You are dismissed at once. Don't you know that the Prince of Wales is getting bald?"

Lithakalani presents one of the most complete and remarkable cases of reform on record.

missed by the choir of the First Presbyterian Church.

Bishop and Mrs. D. A. Goodsell and daughter, who have been the guests of Mr. and Mrs. D. M. Welch of Twenty-ninth street, left for their home in San Francisco yesterday.

Among the recent arrivals at the Hotel California are Mrs. M. Collins of Chicago, W. E. Brown of San Francisco, Mrs. A. Bradbury of New York, Mrs. C. McPherson of Saginaw, Mich.

RESULTED IN MURDER.

A SALOON FIGHT LEADS TO SERIOUS TROUBLE.

Two of the Participants Surrendered to the Authorities by Their Father but the Third Has Escaped.

William and Raymond Fitzpatrick of Pasadena delivered themselves up to Chief Glass yesterday morning on a charge of murder, the result of a fight they had about a week ago, from the effects of which Elmer Newton died on Wednesday.

On Tuesday, February 19 last, the two boys, accompanied by Andrew Park, foreman of the workmen engaged on a building which Contractor W. F. Fitzpatrick is erecting in Pasadena, stopped at a saloon on East Colorado street to cool off after a spin on their bicycles.

After considerable liquor had been consumed Newton and a man named Harrington, for whom he worked, entered and a quarrel ensued. Newton made use of about twenty-four rounds of revolver ammunition, one of which hit Harrington in the right arm. Harrington joined him, a free fight resulted. During the melee one of the three stabbed Harrington in the back, but when they turned their attention to Newton, he mounted one of their bicycles and rode away. When he returned the Fitzpatricks and Park had fled, but Newton was lying on the ground, mortally wounded.

Newton was taken home and his injuries attended to, but just as he began to improve and recover from his wounds, he arose from his bed and, falling accidentally, re-opened a cut in his temple and bled to death, before the hemorrhage could be stopped.

Park disappeared and as he is not known very well, probably has made good his escape. Deputy Sheriff Martin Aguirre lodged the Fitzpatricks in the County Jail, where they await their examination.

Evangelistic Services.

"Condemed Already" was the text of an impressive sermon by Evangelist Pratt at the Memorial Baptist Church. The man who disbelieves in Christ, the speaker said, is not on probation, but is already under condemnation. The condemned man in the cell cannot offset some good he did at some time against the crime for which he is condemned. So no morality can offset the soul's judgment.

He can only accept of pardon provided.

A large audience listened last night to Evangelist MacLane at the First Christian Church. The text was: "What shall I do to be saved?" The Bible, from Genesis to Revelation, was reviewed to show that man must turn to God and be saved by complying with some peculiar conditions laid down. Noah and the ark, the children of Israel in the valley of Goshen, the brazen serpent in the wilderness, the heading of Naaman, the blind man at the pool of Siloam, and many others were cited as instances of the changed man.

"Second Eyesight" was the theme presented by the evangelist at the Pacific Gospel Union last evening. The hall is filled nightly, Edward Kay has been elected as leader of the singing and has already made a marked advance in the song service.

On Sunday evening the mission has been tendered the use of the First Baptist Church for its mass-meeting. Superintendent C. S. Mason will speak.

Builders' Association.

A meeting of the Builders' Association was held last night at which was discussed the question of asking the City Council to pass an ordinance requiring all builders to have licenses, and providing that only competent men shall have licenses issued to them. A committee was appointed to arrange for a banquet to be held in the near future by men engaged in the building trades.

How to Cook a Husband.

One of the lectures before the Baltimore Cooking School recently gave the receipt for cooking a husband, which is not commonly found in books on cookery:

"A good many husbands are utterly spoiled by mismanagement. Some women go about it as if their husbands were balloons and blow them up. Others keep them constantly in hot water, others let them get into difficulties and carelessnesses.

Some keep them in tow by irritating ways and words. Others roast them. Some keep them in a pickle all their lives. It cannot be supposed that any husband will be tender and good if managed in this way, but they are really delicious when properly seasoned."

The last Tuesday in March the California yearly meeting of Friends will be opened at Whittier. Excursions from the East are arriving already for this occasion.

WILDE OMAR.

Roads Convention.

(Riverside Enterprise:) The Good Roads Convention which recently closed its session at Sacramento, has rendered practical service to the people of the entire State by calling attention to many very desirable improvements which can be accomplished to secure better thoroughfares. The convention adopted the report of the Committee on Wide Tires, recommending that a law be passed that all vehicles of a carrying capacity of 2000 to 5000 pounds should have tires not less than three and one-half inches in width and wagons of a carrying capacity of 3000 to 4000 pounds should have tires not less than four and one-half inches in width, and an additional width of half an inch for 2000 pounds additional carrying capacity, six inches being the maximum width required.

The committee urged that a general law enabling these provisions be enacted at once by the Legislature. It is doubtful whether the desired legislation can be had at this session, but there is no reason why counties should not take action.

Riverside county has shown itself alive to the importance of this subject, the Supervisors having, at the last meeting, adopted an ordinance offered by Mr. Edmonston making provisions very similar to those recommended at the Sacramento convention. It is to be hoped that other counties will do the same.

PERSONALS.

J. M. Keith and wife of Kansas City are at the Nadeau.

Charles S. Carnes and wife of San Jose are among the guests at the Nadeau.

Miss Mary Maxwell of Wheeler, W. Va., is registered at the Westminster.
